Testimonial for Garden solutions

Phil and Henry have done an excellent job in transforming my concrete back yard into a pleasant garden. They have both displayed skill and care and enthusiasm in doing a good job. When the job turned out to be harder than expected they didn't moan but simply got on with the task in hand in a very positive manner. Phil kept me informed along the way so I was able to participate in the plans and minor details. When I was not perfectly happy with one aspect they spent time making the changes I asked for without any difficult feelings arising. The quality of their work is very high and I would be pleased to recommend them.

They were also clean and tidy workers which was an added bonus. I also felt quite happy to leave the keys with them when I was at work. They did the job when they said they would and didn't do the usual builder thing of not turning up at an agreed time or disappearing for hours.
