Dear Phil,

We are delighted with the work that you have done in our garden. The new fence at the front of the house looks great and has given us extra security. The decking has transformed the appearance of the back garden and your advice on sizing, style and products has been spot on. We wanted the decking to be practical and to blend in with the garden and you have achieved exactly that. We very much appreciate your professional and diligent approach to the job. The fact that you were both punctual and reliable at all times is certainly an added bonus in this day and age.

We look forward to you returning to build our patio and will be pleased to recommend you to future clients.

Best wishes,

A handwritten signature in blue ink, appearing to read 'Kalam', written in a cursive style.
