Dear Mr Hazelrigg

I just wanted to say how pleased I am with the service you have given me. The garden looks completely transformed and was exactly what I wanted.

Being a lady who lives on my own I appreciated your honest advice on how best to achieve what I wanted and at all times had great peace of mind in being able to leave the key with you and go to work whilst the work was being carried out.

I was very impressed with how tidy you left everything and how much care you took over my whole property whilst carrying out the landscaping.

Not only am I so pleased with the end result but I also found your rates to be very reasonable as I did spend some time on getting various quotes. You completed the work in the time frame you said you would and turned up on time daily, this is rare and reliable tradesmen are hard to find.

All the way through the project I felt that you were doing a great job and did meet my demands on everything I wanted done. As a result of this I would not hesitate to use you again for further work on the front of my house and would highly recommend you to anyone as being a very reliable and professional landscaper.

Once again thanks for a great job

Kind regards

A handwritten signature in dark ink, appearing to read 'K Muir', written in a cursive style.
