Dear Phil (Garden Solutions)

We wanted to write and commend you on the excellent job you have done on our decking, not only were you punctual, polite & very knowledgeable, you have done the job to the highest of standards.

I dont mind telling you, we had several quotes for this job, not only were you more competitive & professional you have a very kind and patient approach.

We will definitely recommend you to our family and friends and will be using your services again in the future.

It has been a pleasure having you around and for working so seamlessly with our electrician so we could have the decking lights we so wanted.

Once again thank you.
